Functional Art

Native Trails lavatory basins are just the right addition to help transform your bathroom into a sumptuous at-home spa. Each sink comes to life through a handcrafted process that is honed by centuries of tradition, skill and experience. It is estimated that a lavatory sink may take forty thousand hammer strikes and several days to make.

Almost Too Pretty To Use

Agraria's Luxury Bath Bars are triple-milled in the French manner to ensure purity, consistency, and long-lasting qualities. Available in eight classic fragrances, the bars create a creamy and silky lather that gently cleanses your skin, leaving it feeling silky, refreshed and lightly scented.
