

**Oh, Vanity of Vanities! Native Trails Expands Offering of Bath Furniture**  
**Adds New Mirrors in Copper and Iron**

To satisfy the increasing metal urge in decorating today, Native Trails introduces a collection of mirrors - four in copper and two in iron. The company is also introducing a new iron and copper vanity base that together with the mirrors makes Native Trails an ever-greater resource for outfitting the bath. The new items provide out of the ordinary accessorizing options as well as uncommonly good detail to bathroom décor.

Like all Native Trails product, artisans using traditional metal and woodworking techniques individually handcraft the mirrors and vanity in the new offering. The end result is a functional work of art that embodies the unique style and skill of the artisan.

**COPPER MIRRORS**

**Milano**

The Milano mirror collection includes three sizes: 20" x 36", 28" x 40" and 36" x 60", all of which can be hung vertically or horizontally. The largest mirror features a three-inch border of hand-hammered copper, versus a two-inch frame for the smaller sizes. Milano is available in the Tempered finish, which displays the most varied shading of Native Trails copper finishes due to the special way the metal is worked over the fire.

The 36" x 60" version is well suited to pair with dual sinks or a large vanity and is a striking design element elsewhere in the home.

### **Tuscany Round**

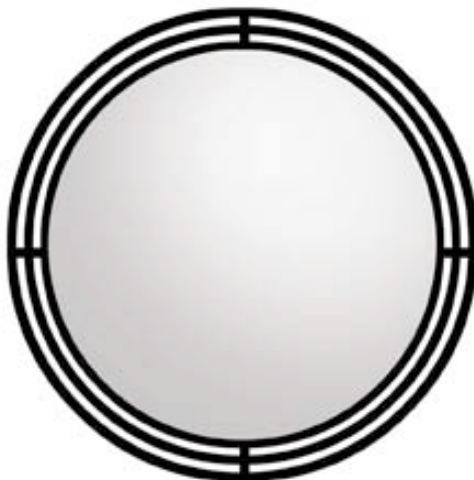

The 36" Tuscany Round mirror has a broad 4-inch frame that shows off the hand-hammered texture along with the varied color of the Tempered copper finish. Hand-forged copper nails studding the circumference add another element of handcrafted detail.

### **IRON MIRRORS**

#### **Asana**

Iron is a metal with unlimited decorating potential and Native Trails is finding new ways to work the material, just as it has successfully done with copper. The company's new Asana mirror features a series of 1/2 inch bands of hand-forged iron framing a 27" round beveled glass mirror. Total outside diameter is 31". The openwork design lightens the look of the hand-forged iron for a refined look.

**Cuzco Mirror**

For a less ornate statement in iron that fits a variety of styles, the Cuzco mirror is a 28.5 x 34 inch rectangular mirror with a solid four-inch border.

## VANITIES

### Cuzco Vanity Base

The new Cuzco Vanity Base, available in 24 inch, 30 inch and 36 inch widths, pairs an iron sink stand with an open shelf below. The streamlined styling and deft use of iron bridges myriad styles from contemporary to Craftsman and Zen to country. The vanity's apron is accented with panels of hand-hammered copper in either the Native Trails Antique or Brushed Nickel finish. The base can be topped with the customer's own counter material and sink or paired with the Sedona or Tuscany Vanity Top from the Native Trails line. The Sedona features an integrated copper sink and backsplash.

### Old World Vanity

Native Trails also is adding two new color options for its popular Old World Vanity, unveiling an olive and black finish. Both colors let the grain of the reclaimed wood come through, giving the two-door cabinet a rustic style, which is further enhanced by the hand-forged iron hinges and handles.

Native Trails products are available at top kitchen and bath showrooms in the US and Canada. For information, please visit [www.nativetrails.net](http://www.nativetrails.net); for local availability, call 800.786.0862.
